

AI to power your everyday

Save hours every week and make smarter decisions with MYOB Acumatica AI.

✦ Practical AI for real businesses

Built for ANZ mid-market businesses

MYOB Acumatica is built for Australian and New Zealand compliance, governance and reporting needs. So your organisation gets AI that fits your local requirements and industry regulations from day one.

Practical and embedded where work happens

AI is woven into the ERP platform itself from finance to operations, distribution and more. So that your team uses AI inside the tools you already rely on, without separate apps or complex importing and exporting.

Future ready without disruption

Backed by a continuous development roadmap, MYOB Acumatica AI evolves over time, so you can start small, demonstrate ROI, and scale into new use cases at your own pace.

✦ MYOB Acumatica AI Experiences

MYOB Acumatica delivers three core AI experiences designed to work in your world:

AI Assistant: Assist with everyday tasks

Helps you complete day-to-day activities faster, so your teams spend less time and energy on admin, and more on what matters.

AI Automation: Automate and streamline processes

Automates repetitive workflows and data entry, improving consistency and freeing capacity across your finance, operations and back-office teams.

AI Advisor: Advise on complex decisions

Surfaces patterns, trends and anomalies in operational and financial data so you can make smarter, faster decisions with greater confidence.

✦ Together, these experiences form a simple narrative for AI in MYOB Acumatica: Assist. Automate. Advise.

Practical AI features available today

MYOB Acumatica brings AI features that immediately reduce admin, improve data quality and strengthen decision-making.

✦ Accounts payable bill entry

- Automatically extracts key data from incoming bills.
- Cross-checks data against existing records to help maintain tidy books and an accurate balance sheet.

Description	Qty	Unit Price	Line Price
Staples 5000pk	20	\$4.08	\$81.60
Packaging Tape 6pk	1	\$12.56	\$12.56
Packaging Tape 6pk	4	\$12.56	\$50.24
Mouse Wireless	4	\$25.12	\$100.48
Notebook AS Ruled	1	\$2.24	\$2.24
Total			\$274.16

✦ Expense management

- Captures and categorises expenses via the MYOB Acumatica mobile app.
- Keeps expense data up to date in the system, strengthening real-time visibility over spend.

✦ Anomaly detection

- Monitors trends in financial data and flags unusual patterns – like abnormally high costs – early.
- Supports finance teams in catching potential errors or issues before they escalate.

UNIT COST	EXPECTED VALUE	ANOMALY SEVERITY
4.32	5.45	NORMAL
13.81	5.45	NORMAL
86.20	5.45	MEDIUM
4.38	5.45	NORMAL
5.04	5.45	NORMAL
143.62	5.45	MEDIUM
5.01	5.45	NORMAL

✦ Auto-complete

- Speeds up repetitive data entry, from order and invoice details to supplier information.
- Reduces manual keying, helps minimise errors and accelerates processing times.
